

LONG ARM QUICK FIST clamp – Item #40010

Quick Overview

- Holds objects from 1/2" to 4.5" (13 to 240mm) in diameter
- Each clamp supports a safe working load of 50 lbs (23 kilos). Break strength is 120lbs (55K).
- Mounts easily with two ¼" (6mm) bolts or #14 wood or sheet metal screws, plus washers.

Installation Instructions

- Mount the clamp with either two ¼" (6mm) bolts or two #14 wood or sheet metal screws and two ¼" (6mm) washers. Snug screws or bolts. (Do Not Over Tighten as rubber just spreads).
- The LONG ARM QUICK FIST can be mounted with the strap facing any direction; but when mounted vertically, it is easier to release and engage the strap onto the latching post, if the strap is hanging downward.
- After locking the strap on the larger latching post, either pull the strap tighter and use the small post as an additional lock; or roll the remainder of the strap inward and fasten on the small post.
