

## SUPER QUICK FIST clamp – Item #20020

### Quick Overview

- Holds objects from 2.5" to 9.5" (64 to 240mm) in diameter
- Each clamp supports a safe working load of 50 lbs (23 kilos).
- 2 clamps support 100 lbs (45 kilos).
- Mounts easily with on #10 bolt.
- Mounting area: 6" x 7/8" (152 x 22 mm).

### Installation Instructions

- Use three #10 screws or bolts and appropriate washer to fasten. (Do Not Over Tighten)
- QUICK FIST can be mounted with the strap facing any direction.
- After fastening the SUPER QUICK FIST clamp stretch the strap by putting one hand on the base and use the other to pull in a perpendicular direction several times on the strap.
- If you plan on holding a large cylinder and the base is not supported, it is advisable to use a piece of angle iron, wood block or shelf bracket to support the bottom of the cylinder. This will also make it easier to lock the clamp in place.
- The strap is divided into three sections. The first olds objects up to 3", the second 5" and the third up to 7". If desirable, excess sections can be trimmed off with wire cutters or scissors.
