"FRESNO" Aluminum Attic Ladder with Tongue & Groove Construction

"Fresno" Series 701 Aluminum Attic Ladders have become very popular in many sections of the country. Specifically designed for indoor use where space is limited, they are particularly ideal for entering attics through ceiling trap doors and similar close-quarter situations.

The "Fresno" Attic Ladder features strong, light weight channel construction and is only 13" wide, making carrying easier on narrow stairways where longer, bulkier ladders cannot be used.

Series 701 Attic Ladders are available in the stock sizes shown below and in special sizes on request. See our [Price List](#) for current pricing.

Series 701

- 750lb Duty Rated
- 2 3/4" Channel Rail

SPECIFICATIONS

FRESNO SERIES 701 Aluminum

No.	Closed Length	Over Rail Width	Inside Top Section	Banking Thickness	Weight
10-701	7' 2"	13"	7.75"	4.563"	27 lbs
12-701	8' 2"	13"	7.75"	4.563"	30 lbs
14-701	9' 2"	13"	7.75"	4.563"	32 lbs

All dimensions listed are N.F.P.A. Design Verification Standards. Variations occur in each product of approximately +/- .125" due to the type of rivets, nuts, bolts etc. used. If you require precise dimensions, please call our office and request a copy of our current field dimension sheets.

Prong feet as Standard
Rubber safety shoes optional for hard surface use.
